Don't Be a Rumor-Monger

A rumor was spread around Hope last week that a certain local boy had been killed fighting with the United States' armed forces in the Philippines. That it was false is now obvious—and should have been obvious even at the time that thoughtless people were circulating it, for it had not been published in the press, nor had the parents been notified by the government.

Quick Action on 2-Ocean Naval Expansion Seen

Committee Approves Measure; Lend-Lease Aid to Continue

WASHINGTON—(P)—Authorization for the expansion of the United States' two-ocean navy was approved quickly Monday by the house Naval Affairs committee after the size of the contemplated expansion was reduced from 500,000-ton to 150,000-ton at the request of the navy.

The measure left the type of ships to be constructed to the discretion of the President and the Navy Department but Chairman Vinson (O. Ga.) said that it would include no battleships.

He hastened to add, however, that this does not mean that "we are abandoning the idea of battleships but it takes a long time to build them."

The measure to increase the size of the navy along with a proposal to extend the draft age limits and to give the president extraordinary control over government functions were ready for swift action.

To Continue Lend-Lease
WASHINGTON—(P)—President Roosevelt reported Monday that lend-lease aid to America's allies—33 countries listed as eligible—had totaled \$1,202,000,000 through November 30. Actual exports up to December 1, however, were worth only \$395,000,000 he said.

Reaffirming his promise that lend-lease aid will go on the chief executive asserted that too much was at stake in this "greatest of all wars" for us to neglect the people who were attacked or may be attacked by our common enemies.

British Sink Italian Ship

12,000-Ton Transport Reported Sunk in Convoy

LONDON—(P)—British submarines were credited Monday with sinking a 12,000-ton ship believed to have been an Italian transport and with damaging or destroying at least a half-dozen smaller vessels, two of which, the admiral said, were picked off in the harbor of Candia in German-occupied Greece.

The large ship which was attacked in a convoy resembled the Italian liner Virginia, the communiqué said. It is known that ships of this type are being used as transports, it was added.

Prowler Enters Home of E. S. Greening

A prowler entered the home of E. S. Greening last Saturday night and made away with several valuables, including a watch, and a billfold containing about \$7 and a check.

Police investigated but the prowler had already disappeared. The search continued Monday.

CHRISTMAS SEALS

Buy now and put them on your holiday mail.

They cost so little but do so much.

Every citizen should lend a helping hand in this voluntary campaign.

County Judge's Contest Sent Back for Trial

Supreme Court Sets Up Rules Governing Primary Elections

LITTLE ROCK—(P)—The supreme court Monday set up rules affecting the conduct of primary elections, holding returns may not be opened for a recount unless there is "prima facie" showing of irregularities.

Reversing for the second time a Hempstead circuit court decree giving Fred A. Luck the Democratic nomination for county judge in the August, 1940, primary, the court directed the trial court to develop sufficient testimony to determine the votes challenged in the contest and the exact votes cast in the primary.

The action was brought by John L. Wilson, also a candidate.

The rules the court said should be observed in primaries provided: "On motion of a voter's name from the published lists does not disqualify him as an elector."

Returns made by election officials are to be accepted as prima facie correct.

Election returns shall not be opened for examination unless there is a positive showing of irregularity.

Ballots re-counted must be positively identified as the exact unutilized ballots cast in the primary.

The vote of a person voting in a township where he is not a resident shall not be counted.

O'Steen Sent to Pascagoula

Former Star Staff Man on Gulf Coast With 145th

Editor The Star: The time has come when the training we've been getting is being put in good use. At least it didn't take long to put the 145th Infantry Regiment on active duty.

Sunday afternoon, (Dec. 7) we were all sitting in our tents with every radio going, listening to the turn of events which meant war. At eight-thirty p. m. an alert call went out for our Regiment, announcements over the radio being made calling all men back to their post. Everything was packed ready to leave at any time. We had breakfast at 3 a. m. Monday morning and at 5 a. m. left for, we knew not where. Three hours later found us in Pascagoula, Miss., 120 miles away from the coast. Here we immediately took up routine guard duty.

The quarters are even better than in Shelby, it being a new place. About the best improvement I find is Natural Gas instead of coal. There's a very nice view of the Gulf right from the camp.

The greatest complaint from the soldiers is missing their Christmas furlough. But beginning today a small percentage at a time will be allowed furloughs. Probably won't get mine for some time, being new in my company.

The Hope Star is getting here regularly and is about the greatest pleasure I have. I get quite a few letters but all together they lack a lot of containing what the home town paper does. Mr. Washburn I want to thank you for sending it and sincerely hope many of the people have taken advantage of sending it to the fellows in service, whose thoughts are still home. Defending our country is just that—defending home.

Give my regards to all; still have hopes of getting to visit with you if at any time you can, write. Good luck. May we all come out on top!

Sincerely,
Private Barney V. O'Steen
Co. A, 145th Infantry
37th Division, Camp Shelby, Miss.

Haynie to Speak at Kiwanis Meet Here

Chief of Police F. V. Haynie will address the Hope Kiwanis Club Tuesday noon on "The Methods of Saboteurs in the Present War."

Chief Haynie is the newest member in the Hope Kiwanis Club, and it is believed that he will furnish some real information on this vital subject in Tuesday's noonday luncheon in Hotel Henry.

Nazis Fall Back on Russian and African Fronts

General Offensive on Both Battle-grounds Is Indicated

MOSCOW—(P)—The Red army snapped back from its successful defense of Moscow, Leningrad and the Caucasus is turning to a general offensive and is now fighting especially hard to restore the main Moscow-Leningrad connection through Klin, the Soviet reported Monday.

Pravda, Community party organ, in a broadcast report said Soviet troops had cut the Moscow-Leningrad line at one point and had taken 42 settlements and 75 German tanks in a single day.

The newspaper said troops which had retaken Solnetschnogorski, 31 miles northwest of Moscow and east of Klin were now throwing the Germans out of other localities and the "Nazi retreat is proceeding in disorder with large numbers of dead and wounded being left behind." Yakhron was recaptured five days ago, it was added.

The Tikhvin-Volkhov railway southeast of Leningrad already has been cleared of the Germans, it was said.

In London an authoritative military source said the initiative, appeared to have passed to the Russians in the Moscow sector. It is clear that the Germans are not succeeding in readjusting their lines because plans are constantly being disturbed by the Soviet onslaught.

The Russians said their purpose now "is to exterminate the German armies on our soil."

Retreat in Libya
CAIRO—(P)—Further British gains southwest of Gazala were announced by British headquarters Monday as the Libyan campaign apparently turned into a race by Imperial forces to compel the Axis armies to fight a decisive battle before they can fall back on new and more favorable positions.

Britain and Indian troops twice were counter attacked by German tanks and truck-borne infantry during the advance, the communiqué said but "most of the attacks were repulsed with 16 German tanks destroyed and 20 officers and 350 of other tanks captured."

It was said that more than 700 Axis prisoners and many Germans were taken Sunday. A heavy new material baw was dealt when General Ewin Rommel's forces were listed with the capture of 7 guns, 3 tanks and a supply dump containing 70,000 gallons of fuel and the destruction of 6 Axis planes by ground forces.

These are the Philippines, mysterious, mountainous chain of 7083 American islands in the Orient where East has for four centuries mingled with West, where troops of Japan now clash with those of the U.S.

Tokyo Worried Over Men Lost in Sea Action

Luzon Battle Stabilized but British Give Ground in Malaya

By the Associated Press
Japanese officials took worried cognizance of an allied aerial and submarine counter offensive which has taken a toll of unaccounted thousands of Japanese troops enroute to Oriental battlefronts.

A joint army and navy communiqué warned the Japanese people against the lurking danger of enemy submarines off the Japanese island coast and urged them to prepare for a protracted war wherein hostile submarines and aircraft bombings will play a role.

Thus far between them the United States and the Dutch submarine fleet operating over and under the China sea have sunk 8 troop-laden vessels heading for Philippine and Malaya landings along with two supply ships which the air force was credited with sinking in addition to damaging many transports.

A Japanese statement indicated the war on the sea and in the air was drawing closer to the island empire. The afternoon communiqué from Manila indicated that the Japanese were checked in land operations at three points on Luzon and said that "enemy activities throughout the day were confined entirely to the air."

Japs Gain at Hongkong
LONDON—(P)—The Japanese have attacked Hongkong from the land and air for the past two days as British forces on the Kowloon peninsula, the crown colony's mainland sector, fell back to defend the Hongkong Island, the British declared.

"The withdrawal order was according to plans and is still going on," a Japanese announcement said.

Japanese dispatches said the British defense of Hongkong were crumbling under the shelling of siege guns and aerial bombardment. The fall of Britain's second most vital stronghold was declared by the Japs to be only a matter of days.

One potential source of relief for the colony was a Chinese attack on the rear and flank of Japan. But British sources said they had no information on that operation beyond Chungking advice that a fierce Chinese assault was now in full swing against Japan in the Tamsui area, north of Hongkong.

Retreat in Malaya
SINGAPORE—(P)—A British communiqué (Continued on Page Two)

Cranium Crackers
Desert Warfare
Soldiers fighting on the sands of Libya know well the meaning of the term "heat of battle," for nothing could be hotter than the inside of a tank on the blazing desert. You'll find this set of questions about the north African war front warm entertainment for these cool evenings.

1. Did Winston Churchill say "Tobruk or not Tobruk, that is the question" in the House of Commons just before the new Libyan drive began?

2. What two brothers, and a third officer with a similar sounding name, lead the opening British land, sea and air offensive against Libya?

3. Bomba, Benghazi and Bardia are all Libyan cities. Locate each in its relation to the Egyptian border.

4. "To the shores of Tripoli" is a familiar U. S. Marine Corps phrase. Does it refer to Tripoli, the capital of Libya?

5. Is Libya bigger than Texas; than Mexico?

Annual Xmas Show Dec. 22

Tickets Are Mailed Monday to School Principals

This is the annual Free Christmas Picture Show put on by the Saenger Theater and the merchants of Hope.

Last year more than five thousand children attended the Christmas Show, and several more schools have been included this year so it is expected that it will tax the capacity of the Saenger to accommodate the school children with the three shows.

The Free Christmas Picture Show will be given on Monday December 22 this year. There will be three shows, the first beginning at 9, the second at 11 and the third at 1 p. m. Hope children are asked to patronize the first show, and then leave room for out-of-town children at the 11 and 1 o'clock shows.

The picture this year will be a technical feature "Swanee River," which tells the story of the life of the great composer of Southern songs, Stephen Foster, and many of his songs are sung in the picture. The feature and several shorts will furnish good wholesome entertainment to the children for an hour and a half.

Every school child in the Hope trade territory is invited, and if any school has been overlooked the Chamber of Commerce will be glad to furnish tickets for all of its pupils upon request.

Teachers are asked to impress on the children the date, place and hours of the shows, Monday December 22 at 9, 11 and 1 o'clock at the Saenger Theater.

Band Concert Tuesday Night

High School Band to Play on Downtown Streets

Weather permitting, the Hope High School Band will present a program of Christmas Carols, patriotic songs, and marching formations Tuesday night, December 16 on Main street between first and second streets beginning at 7:30.

This is the program which was planned in connection with the firework display last Thursday night and had to be postponed because of the inclement weather.

The sixty boys and girls all dressed up in uniforms and going through various maneuvers will present a beautiful sight that every citizen of Hope will enjoy. The main feature of the program will show Santa Claus and his reindeers which will be of especial interest to the small children.

The program will begin promptly at 7:30 and will last approximately 30 minutes.

All County Boys in Alaska Reported Okeh

In a telegram to his wife, Mrs. Milton Eason, Lt. Eason, who is stationed at Nome, Alaska, asked that greetings be extended to the families of the many Hempstead county boys now stationed in Alaska.

According to Lt. Eason, no mail has been sent from the Alaskan post for several weeks, and for their families not to worry because all are reported in good health.

The Donbass produce 61 per cent of Soviet coal in 1938 and nearly half of its steel.

Fire Damages Julia Chester

Blaze Quickly Put Out Before Patients Knew of it

The dining room of the Julia Chester Hospital was considerably damaged by fire here early Sunday morning but was quickly extinguished before it could spread to other parts of the building. Estimates placed the damage at approximately \$250.

The blaze was believed to have started from an iron in the kitchen, and was confined to the wall and the attic of that room.

The fire department had the blaze under control shortly after. As one source said "most of the patients didn't even know there was a fire."

The American Medical Association was founded in Philadelphia in 1845.

The first electrically cooked meal was prepared in England in 1855.

Said Horatio the halcyon horse As he nibbled a fresh bale of gorse, "It's so late my selections Are full of defections And I suffer the Pangs of Remorse."

8 SHOPPING DAYS TILL CHRISTMAS

Rose Bowl Tilt Is Canceled

But Other Bowl Games Apparently Will Be Played

SAN FRANCISCO (AP)—The Rose Bowl football game, scheduled for Pasadena, New Year's Day, was called off Sunday after a meeting between Rose Bowl members and Lt. Gen. John L. DeWitt, Western defense commander.

Five representatives here from Pasadena conferred briefly with General DeWitt who Saturday asked Gov. Culbert Olson to request that the game be canceled for military reasons.

Duke Would Play
DURHAM, N. C.—(AP)—Duke University officials said Sunday they had suggested to Oregon State that the Rose Bowl football game on New Year's Day be played in the Duke Stadium rather than Rose Bowl stadium or elsewhere.

Dr. Williams' H. Wannamaker, Duke Dean, and Coach Wallace Wade said they had sent this message to Percy Lecroy, Oregon State director of Athletics, before learning of the cancellation but in anticipation of such action.

Sugar Bowl to Play
NEW ORLEANS (AP)—The Sugar Bowl is continuing plans for its week of sports culminating in the football game between Oklahoma and Missouri New Year's Day as has received no request to cancel the event. F. D. Heilly, chairman of its Publicity Committee, said Sunday.

Orange Bowl to Play
MIAMI, Fla.—(AP)—W. G. Ward, president of the Orange Bowl Committee, said Sunday that "we don't see any reason for canceling" the New Year's Day football game here between the University of Georgia and Tulane Christian University.

"We haven't heard anything about the race tracks closing here, and there will be just as much traffic to the race tracks every afternoon as we will have that one afternoon," Ward declared.

Navy Physical Rules Relaxed

Many Formerly Rejected Will Now Be Accepted

A relaxation of physical standards for enlistments in the U. S. Navy and the Naval Reserve was announced this week by the Navy Department in commenting on this action, the Navy Department announcement stated that numerous men who in past months have sought to enlist and have been rejected on the basis of minor physical defects will, because of the modification of physical standards, be encouraged to re-apply for enlistment in either the regular Navy or the Naval Reserve for the duration of the emergency.

The Navy Department has requested that any person knowing of young men who had been barred from enlistment in the Navy or the Naval Reserve because of minor physical reasons should bring this modification in physical requirements to the attention of these young men.

Applicants with various veins will be acceptable under the changed standards, this variance condition to be corrected, if the condition is painful, at the Naval Training Stations to which the new recruits are sent. Hydrocele, another defect that formerly ruled out numerous applicants, will be corrected, if necessary, after enlistment arrive at Training Stations. Applicants suffering from hernia will be accepted provided their I. Q.'s are 75 or better. Recruits suffering from hernia will be treated at the Training Stations and will be enrolled for schooling during their periods of convalescence.

Other physical defects which formerly prevented men from being accepted as recruits, but which now are waived, are seasonal hay fever; correctable nasal deformities or nasal deformities of such a degree as not to interfere with duty; undernourished and underdeveloped applicants, providing the condition is not due to organic disease; and minor surgical defects which can be corrected within a month. Applicants who possess 18 natural serviceable teeth, with at least two molars in functional occlusion and not more than four incisors missing, will be acceptable. Dental treatment will be given at the Training Stations.

Any applicant who has been rejected because of any of the defects noted above is urged to re-apply for enlistment in the Navy or Naval Reserve immediately.

All applicants accepted with defects requiring correction will be hospitalized. After correction of these defects recruits will be returned to their Training Stations at the earliest practicable time.

These modified physical standards will apply for all applicants for enlistment in either the regular Navy or the Naval Reserve with the exception of applicants for enlistment in classes for prospective commissioning.

Our Daily Bread

(Continued From Page One)

States would have to fight their own desperate and having fight the war was left of the national situation, provided of course that there was any fight left at all unimpeded by the substitution influence which would probably undermine us from within.

Today we have allies. We have the great British Empire, with its world-wide people and resources. We have the great Russian people, the only one that for which has been able to stop a Hitler land offensive. We have the Chinese people, thousands of years of heroic struggle against Japanese aggression. We have South America on our side. We have advantages we shall probably never have again.

So if it had to come, and it is increasingly clear that it did have to come, better that it should come now.

Years of bitter struggle, sacrifice and blood have been shed. But at least the war, the chips are down. We know where we stand. We know that there is only one thinkable course to go forward to ultimate victory, no matter what the cost, our very national existence being the stake.

SPG Cagers Start Monday

First Game to Be Played at High School

When the Southwestern Proving Ground Basketball League begins tournament play Monday night at 7:30 in the high school gym, fans will have a chance to see some of the outstanding hoop talent of these United States, according to the League chairman, John Griffin.

Griffin says that scattered through the six team conference are some men who have done and died for their alma maters, ranging all the way from the Empire state to sunny California.

Shining like a recruiting poster is a guy named Corbin who played his way through a hitch in the Navy and wound up his service career as all Navy forward. Reedy, stalwart playing manager for the War Department, whose team encountered the Engineers in a practice scrimmage Friday night, says that Corbin is the hottest thing he has seen on the floor in many a month. "That ball just adheres to his hands, and he can make it do tricks that keeps the opposition wondering if they are playing a man or a ghost," Reedy mused.

The Reedy himself is quite nimble, over six foot and 200 pounds, he is surprisingly fast. He has eight years of high school and college play and six seasons of experience in leading a Sunday school team in a municipal league at Texarkana. Two other alpine figures on the War Department team are Lieutenants Richards and West.

Playing a lot of ball for the Gas and Oil Department at the project are the two former college stars, Messrs. Lister and Fredrick. Lister carved his name above the goals at Warrensburg Teachers College, Missouri, where he played on the varsity for three years. Fredrick is from Trinity College, Sioux City, Iowa and well-known to hoop fans in that area.

In the game for the Contractors Accounting Department are a number of former college greats who are rounding into shape and taking the coming tournament with deadly seriousness. This team is working out every night and working all corners that they plan to finish the hoop play on top or thereabouts. This team lists among their assets Boy Sycle from Santa Barbara Junior College, Wyse and Chessir forward and utility man respectively as well as Wender Wilkerson, Howard Payne College flash.

The Architect-Engineers have two teams in the league composed of field employees and office workers. Rumor credits this group with having several dark horses uncovered that will open the collective eyes of the competition. Lending some credence to this rumor is the known fact that the "Designers" have a lot of recent college graduates on the payroll.

These youths look a little more fit than some of the slightly obese contestants.

Local fans can see again the outstanding floor work of Dorsey Fuller, who played a lot of ball for the Bobcats. When the Engineers take the floor, other men who are no strangers to the boards are: Vasco Carson, Arkadelphia Ace, and said to be team nucleus; Dorsey Fuller, another Hope Bobcat-ex who is showing a lot of pep; Joe Nelson, Joplin Jr. College, Oscar Johnson from University of Illinois; Lester Pelham, another Illinois man.

E. D. Lord, league manager, said this morning, "We are going to have some hard fast play. The play will be clean and we will run things off in a hurry. There will be three games each Monday and Thursday night. The games start at 7:30, 8:30 and 9:30 respectively. Season tickets are \$1.50. General admission will be 15c a night."

Jap Negotiations Related to Congress

WASHINGTON (AP)—President Roosevelt told congress Monday how Japan's course of aggression in the Pacific was climaxed by an attack on the United States at the very time that she was voicing a desire for peace and declared that "there is the record for all history to read in amazement, in sorrow, in horror and in disgust."

The Chief Executive's message related all of American-Japanese negotiations and of the history prior to the Japanese onslaught.

Mr. Franklin D. Roosevelt says two-thirds of the jobs in defense industries can be done by women.

Public Meeting on Employment

State Organization to Discuss Opportunities

A public meeting on employment will be held Monday night at 7:30 at the Hope Adult Education Center. The meeting is being held at the request of the State Organization to Discuss Employment Opportunities.

The meeting will be held at the Hope Adult Education Center, 111 S. Main St., Hope, Ark. The meeting is being held at the request of the State Organization to Discuss Employment Opportunities.

The meeting will be held at the Hope Adult Education Center, 111 S. Main St., Hope, Ark. The meeting is being held at the request of the State Organization to Discuss Employment Opportunities.

Perhaps you have not yet heard of the Hope Adult Education Center. It is a place for the people who are unable to work in factories, mines and other industries making arms, clothing, and other necessities for the war effort. But what are the prospects for those who are in a specific trade of profession? Mr. Reedy will endeavor to help and will give you a job and to learn yourself how a better one.

The Adult Education Center is a new link in the chain of education. It is a place for the people who are unable to work in factories, mines and other industries making arms, clothing, and other necessities for the war effort. But what are the prospects for those who are in a specific trade of profession? Mr. Reedy will endeavor to help and will give you a job and to learn yourself how a better one.

The activities of the Center and the future plans to be held under the local sponsorship of the National Defense Education Act will be explained by Mr. Reedy. All the activities of the Hope Adult Education Center are under the direction of Mrs. Mary B. Nichols, who is sponsored by the State Department of Education and the Works Projects Administration.

Seal Campaign Is Progressing

Returns Far Exceed Those of Any Previous Year

Additional returns Monday revealed that the local Christmas Seal campaign was more than that of the previous year.

"A successful Christmas Seal Campaign now means that the local tuberculosis association can carry on its winning fight against tuberculosis in 1942," Rev. J. E. Hamill, city chairman, said.

"Ours is a community that has never failed to distinguish itself in any worthy cause. We must make this one successful."

Mr. Hamill urged that desk drawers and tables be searched for unpaid Christmas Seals.

"Very often these sheets of Seals are forgotten or get buried in a welter of Christmas wrapping paper and are out of sight until the owner thinks it is too late to pay for them," he added.

"Our local association must draw up its budget for 12 months of work during the coming year. It needs all the support we can give it for an effective program."

Annual Home Club Party

Demonstration Group Meets at Centerville

County Council of Home Demonstration clubs had their annual Christmas Party at Centerville Church Friday December 12. The church was beautifully decorated with green vines, holly, mistletoe and a beautiful Christmas tree.

Eight clubs answered the roll call with a Christmas song or verse. Even though the weather was severe, approximately 50 interested Home Demonstration club members were present. Mrs. Patterson, president of Centerville club, presided at the meeting. The meeting was opened with a song, "Silent Night, Holy Night" led by Mrs. Early McWilliams of Shover Springs with Mrs. Aaron Jones, Centerville club at piano. Mrs. Patterson gave the welcome address followed by the response written by Mrs. Roy Burke and read by Miss Phoebe T. Harris, Assistant home demonstration agent. Mrs. J. C. Collier of Onk-grove Club gave a Christmas Reading.

Miss Mary Claude Fletcher, Home Demonstration Agent, discussed "Farm family Christmas" and gave many beautiful examples of home made Christmas decorations, table arrangements and Christmas gifts.

After a bountiful Christmas dinner under the direction of Mrs. Guy Linaker, Centerville club, the group was given by the Centerville School children under the direction of their teacher, Mrs. Clark.

Mrs. O. B. Hodnett, FSA Home Supervisor, gave a summary of Under Secretary of Agriculture, Hon Paul

Fumigate Grain in Storage Is Agent's Advice

30 Per Cent of Grain Destroyed Each Year by Insects

Spreading of the insecticide DDT for fumigation of grain storage bins is being urged by the Arkansas Farm Bureau. The bureau claims that insects destroy 30 per cent of the grain stored in bins each year. The bureau says that the use of DDT will reduce this loss to 10 per cent. The bureau also says that the use of DDT will protect the grain from the danger of being eaten by insects. The bureau says that the use of DDT will also protect the grain from the danger of being damaged by insects. The bureau says that the use of DDT will also protect the grain from the danger of being damaged by insects.

America's Bill of Rights

U. S. Puts Guarantee on Freedom Just 150 Years Ago

By ALEXANDER R. GEORGE
AP Feature Service Writer

WASHINGTON — It was just 150 years ago that Uncle Sam put his official guarantee on freedom of speech, press and religion.

On December 15, 1791, the American Bill of Rights (the first 10 amendments) was tacked onto the Constitution to safeguard the liberty of the individual—a principle for which an old Greek gentleman named Solon had died 2,500 years before.

From Thomas Jefferson and Patrick Henry to Eugene Debs and Charles Evans Hughes, the Bill of Rights has been more zealously defended than any other section of the Constitution. It has had some rough-going, but radicals and conservatives, soapbox orators and presidents have fought for its preservation.

The Constitution is originally drafted contained no provisions for freedom of speech or religion except that it forbade any religious test and gave immunity to members of Congress in debate. The framers generally had assumed that the power of Congress did not extend to the press.

British Army's Fastest Climber

Rapid rising Maj.-Gen. Archibald Edward Nye has advanced from the rank of private to his new post as vice chief of Britain's Imperial general staff in only 25 years, an achievement surpassed only once in modern British military annals.

When the United States entered the World War, a bill was introduced in the Senate which made the whole country a part of the zone of enemy operations and declared a person, who published anything endangering the successful operation of our forces, to be subject to trial as a spy by court martial and the penalty of death.

The bill was shelved when President Wilson wrote a letter to the Senate attacking the constitutionality of the bill. He said that the bill was a violation of the First Amendment of the Constitution.

During the World War there were 2,000 prosecutions and other judicial proceedings involving speeches, newspaper articles and pamphlets in alleged violation of the Espionage Act. After the Armistice there was an epidemic of legislative moves to punish advocates of radicalism.

Socialist Eugene Debs was sentenced to prison for 10 years for statements made in a speech on pacifism in September, 1918. Many, who opposed Debs' ideas, disapproved of his conviction. He was the only man in his way to be nominated for the presidency while in prison. The Socialists choosing him in 1920. President Warren Harding commuted his sentence after he had served two and a half years.

Bureau Urges Permanent Building Plan

Asserts Tents Create Hazard to Live Stock and Property

LITTLE ROCK—(AP)—Pointing out that the use of tents creates an extreme hazard to human life as well as property, including live stock, the Arkansas Farm Bureau Federation by formal resolution at its recent annual convention urged a permanent building program for the Arkansas Live Stock Show and pledged the cooperation of the organization to exposition association officials toward this end.

"We respectfully urge the board of directors of the Arkansas Live Stock Show to immediately inaugurate a permanent building program designed to provide proper facilities for the housing and showing of live stock and poultry," the resolution read, in part, and also stated "that said program be conducted in such a way that it will not interfere with the state appropriation of money for live stock and poultry exhibited by Arkansas farmers."

A number of suggestions have been made for financing a permanent building program, including public subscription, citizens combined for political action, by denying them the only recourse of peaceful government; that is, action by the ballot box and through duly elected representatives in legislative bodies.

Plentiful Pork in Hempstead

Ample Grain Supply Is Far Above Normal

Ample grain supplies and an above-normal spring pig crop should result in record quantities of farm-cured pork on Hempstead county farms this winter, Oliver L. Adams, county agent believes.

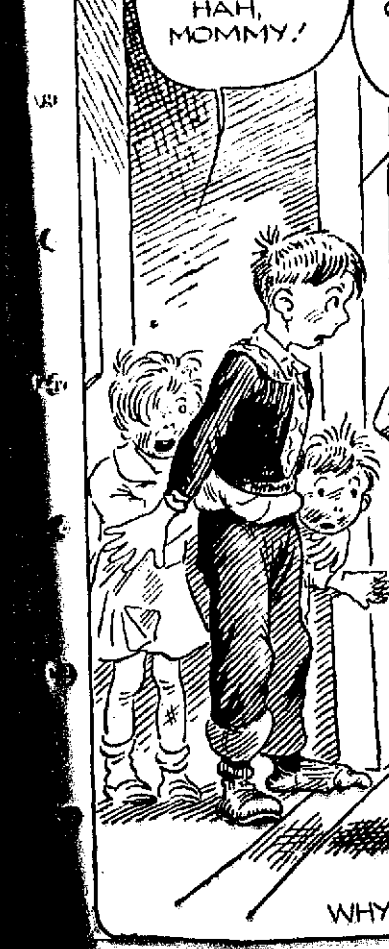

The price of farm-cured pork can be reduced, he said, by getting more economical gains by feeding protein supplements.

M. W. Muldrow of the University of Arkansas College of Agriculture recommends a protein supplement consisting of one-half cottonseed meal and one-half tankage. When such a mixture is fed thrifty pigs weighing 75 to 100 pounds, the Extension animal husbandman said that about 350 pounds of grain and 30 to 35 pounds of the protein supplement will be required to produce 100 pounds of gain.

Gains in weight become more costly the heavier the pig becomes. Consequently, from the cost standpoint the most desirable killing weights are from 225 to 250 pounds. These weights also produce more desirable cuts both for fresh and for curing.

Farmers Vote on AAA Cotton Plan Saturday

Marketing Quota Referendum to Be Decided December 13

Cotton producers should remember that a heavy-price depressing surplus will be over the cotton farmer when they think about voting in the cotton marketing quota referendum on Saturday, December 13, county agent Oliver L. Adams of Hempstead county is discussing the cotton situation in reference to the referendum.

Without growing another stalk of cotton, the supply of American cotton is sufficient for domestic consumption and exports for about two years," he said. "This surplus would ordinarily be removed, at least in part, by foreign exports, but the war has reduced our exports more than three-quarters."

If two-thirds of the nation's cotton farmers voting in the referendum Saturday favor marketing quotas they will be in effect for the 1942 cotton marketing year. If more than one-third are opposed to quotas they will not be in effect and, in addition, there will be no more loans made on this year's cotton crop after the results of the referendum are announced.

It is wish to join H. Earl King chairman of the County Triple-A committee and other farm leaders of the county in urging all persons who are eligible to vote in the referendum to do so. It gives farmers a voice in their program and in addition, lets congress know that farmers are interested in the farm program," Mr. Adams said.

poor Grandma!

Children grown up she has time to enjoy but she's worn out from years of work. She often has dainty appetites and may not get the Vitamin B1 and iron she needs. Pleasant-tasting VINOL, the modern health combining these and other valuable ingredients. Your druggist has VINOL.

WINGS FOR AMERICA

BY BOB WILLY

Homepower and More Wings for America

America's aircraft industry is producing nearly 20,000 warplanes this year. Some time in 1943 it will have achieved an annual production rate of 50,000. Within the next two years it will be called upon to deliver nearly 100,000 of the world's best airplanes.

But what of the power to drive this vast aerial armada? What of the thousands upon thousands of engines with out which the aircraft we are delivering to our own air forces and to the other democracies would be earth bound?

The Story in Figures

Let's let statistics tell the story. Despite the complexity of their task the building of a modern high-speed engine is as complex and exacting as any in the field of aeronautical production. American aircraft engine manufacturers had as this was written achieved a rate of approximately 4,000,000 horsepower monthly, 12 times that of the autumn of 1939, when the war in Europe began.

By 1943 this monthly production rate will have been stepped up to 15,000,000 horsepower!

Two Leading Producers

There are two principal producers of 550- to 2000-horsepower radial engines in the nation—Wright Aeronautical Corp. (a division of the Curtiss-Wright Corp.) and the Pratt & Whitney Aircraft Division of United Aircraft Corp. Here are some statistics from the latter organization which show how mass production has been achieved:

November shipments amounted to 2,000,000 horsepower—sufficient horsepower for a fleet of 350 twin-engine bombers of the Lockheed Hudson or Martin Maryland types. This monthly rate marked achievement of a goal which originally hadn't been scheduled before February, 1942.

1 Month vs. 2 Years

At its present rate, Pratt & Whitney will, during December, January, February and March, turn out more horsepower than America was able to produce, with the aid of seven automobile makers, during the entire first World War.

Since the war in Europe began, Pratt & Whitney's total production has been 22,000,000 horsepower, twice the company's output during its entire previous history!

Let's Go! U. S. A.—Keep 'em Flying!

The first extended over water flight was in 1919 when Glenn L. Martin piloted his seaplane from the California mainland to Catalina Island and return.

Electrification Priority Asked by Farmers

Bureau Makes an Appeal to Office of Production Management

An appeal to the Office of Production Management to recognize the fact that rural electrification is an employment factor in the national production effort has been made by the Arkansas Farm Bureau Federation, which is asking that material assistance be given by the War Relocation Administration to the Federal Rural Electrification Administration.

Members of the Farm Bureau at the recent state convention adopted a resolution requesting the War Relocation Administration to make a study of the rural electrification problem in the United States. The resolution, it was stated, "That we exert our influence to the fullest extent to improve upon the OPM in the matter of priorities for the making available to farm-owned cooperatives of electrical energy for the production of agricultural products."

With substantial progress for more than three years and all of the time constructed except about six miles the Farm Bureau is asking that the War Relocation Administration be authorized to make a study of the rural electrification problem in the United States.

Thirty or more families in the Arkansas area have been this time completed and have successfully produced securing food, fuel, clothing, farm, pump, poultry house lights and other equipment that would make their farms more productive of quality defense needed farm products.

Electrical energy for Arkansas farms is important in the "Food for Defense" program which is being projected by the Department of Agriculture. Since farmers are utilizing it to advantage in their operations, particularly in heavy producing poultry and dairy centers, the general use in many phases of farming is statewide in scope.

Mrs. Huxley also pointed out that conditions which will exist in that county in the near future as a result of the war remain unknown and that a network of rural power lines through inland states would be of strategic importance in the event decentralization of defense industries ever became necessary.

Electricity enters most their shops at night. But power has in Arkansas during a night battle.

Members of the Farm Bureau at the recent state convention adopted a resolution requesting the War Relocation Administration to make a study of the rural electrification problem in the United States. The resolution, it was stated, "That we exert our influence to the fullest extent to improve upon the OPM in the matter of priorities for the making available to farm-owned cooperatives of electrical energy for the production of agricultural products."

Electrical energy for Arkansas farms is important in the "Food for Defense" program which is being projected by the Department of Agriculture. Since farmers are utilizing it to advantage in their operations, particularly in heavy producing poultry and dairy centers, the general use in many phases of farming is statewide in scope.

Mrs. Huxley also pointed out that conditions which will exist in that county in the near future as a result of the war remain unknown and that a network of rural power lines through inland states would be of strategic importance in the event decentralization of defense industries ever became necessary.

Covering Capital Is Grim Business These Days

The grim business of covering the capital these days is a grim business. It is a business that is not without its dangers. It is a business that is not without its risks. It is a business that is not without its rewards.

CAMELS

PRINCE ALBERT

Season's Greetings

Make your gift Camels. America's favorite cigarette is sure to please. The gay gift package below contains four boxes of the popular flat fifties. No other wrapping needed.

Another Camel way to say "Merry Christmas" — the famous Camel cartoon (10 packs of 20's), Hours of Camel's mild, flavorful smoking pleasure. All ready to give—with place for name.

You're proud to present pipe-smokers with this big one-pound tin of mild, rich-tasting Prince Albert Smoking Tobacco. Magnificent in its Christmas jacket... just right in a pipe!

CAMELS

There's an added pleasure in giving Camels at Christmas. You know your gift will be so genuinely welcome. More smokers prefer Camels than any other cigarette. And that preference holds for men in the Army, the Navy, the Marines, and the Coast Guard, too! So remember those lads in uniform... remember all the cigarette smokers on your list... with the cigarette of costlier tobaccos—Camels. Choice of the two holiday packages above.

PRINCE ALBERT

If he smokes a pipe, a big, long-lasting pound of cool-burning Prince Albert spells smoking pleasure 'way into the New Year... at camp, on ship, at home, Prince Albert is choice tobacco, "no-bite" treated for mildness and "crisp cut." It's the National Joy Smoke. There's no other tobacco like it. Your local dealer has two handsome Prince Albert "specials"... the pound tin (above) or the special glass humidor jar. Get yours today.

GIFTS THAT ARE SURE TO PLEASE IN BEAUTIFUL CHRISTMAS WRAPPERS
